Ever wonder why some people respond in such unexpected ways to your perfectly reasonable pronouncements? Or what explains why some people seem to be stuck in a particular mindset that does not allow for differences of opinion?

Spiral Dynamics reveals the hidden complexity codes that shape human nature, create global diversities, and drive evolutionary change.

In this introductory class you will learn:

- to identify the various stages of human development according to the Spiral Dynamics Integral model
- practical applications for the Spiral model
- how the stages of development show up in your own experience
