FORGIVENESS 101

Interactive Forgiveness Workshop

“ Don’t think about it anymore. Just let it go.”
“**That situation**” keeps playing in your head over and over .
All you want is to feel better, now. But how?

This powerful interactive workshop uses simple guided activities that will empower you to move through the forgiveness process once and for all . I have personally been able to forgive the “unforgivable” and have gained physical and emotional health from it. I want to share with you how you can move on.-
